

# CLEAN MAX™

CLEANING AGENT

**Removes  
Pigment Stains** 

**General Surface  
Cleaning** 

**Cleans Spray  
Tank Residue** 

**CleanMax™** is a concentrated dual purpose cleaning agent. Apply direct to tough stains as a RTU, or dilute for maintenance of tank pigment / dyes / oils and general hard to remove stains. Ideal for most surfaces that come in contact with spray equipment. CleanMax is great for spray tank cleaning and sanitizing of residues and other materials left after spray applications.

## **Features & Benefits:**

- **Removes Pigment From Spray Equipment**
- **Cleans Most Outdoor Surfaces Stains**
- **Cleans Residue From Spray Tanks After Pesticide Or Fertilizer Applications**

### **Application Instruction:**

Use as RTU on tough stains. Dilute 50/50 with water on typical stains or general cleaning. When applied as an internal spray tank cleaner, use 2 qt. / 100 gallons.water.

***Clean Max does not neutralize residual pesticide activity.***
